# Alphabet Announces Third Quarter 2026 Results

MOUNTAIN VIEW, Calif. – October 28, 2026 – Alphabet Inc. (NASDAQ: GOOG, GOOGL) today announced financial results for the quarter ended September 30, 2026.

- Consolidated Alphabet revenues increased 25% to $127.6 billion, reflecting strong performance across the business and our 13th consecutive quarter of double-digit revenue growth.
- Google Services revenues increased 11% to $96.3 billion, led by 12% growth in Google Search & other with the year-over-year Search query growth rate the highest it has been in the last five years.
- Google Cloud delivered record growth as revenues increased 103% to $30.7 billion, led by strong growth in Google Cloud Platform (GCP) across enterprise AI infrastructure and enterprise AI solutions, as well as core GCP services. TPU systems sales were also a meaningful contributor to revenue growth.
- Consolidated Alphabet operating income increased 30% and operating margin was 31.8%.
- Net income available to common stockholders was $26.2 billion and EPS was $2.12.

Sundar Pichai, CEO of Google and Alphabet, said:

“We had a strong quarter and are now on a half-trillion dollar revenue run rate. Our deep full stack approach is driving momentum across the business, with Alphabet revenues growing 25% year-over year.

Our AI investments are driving overall Search query growth, including commercial queries. In fact, our year-over-year query growth rate is the highest it’s been in the last five years.

Google Cloud revenues grew 103%, powered by huge demand for our AI infrastructure and AI solutions. We’re also seeing strong demand for our TPU systems across a wide range of customers.

Gemini 4 Argon and Carbon are now leading at the frontier. Overall, our first-party model APIs are now processing nearly 32 billion tokens per minute, more than four times what we processed a year ago.

On top of that, the Gemini app has reached one billion users—making it the fastest-growing product in Google’s history—and we surpassed 150 million YouTube Music and Premium subscribers globally, including trials.

We’re excited by the range of big opportunities ahead of us.”

**About Non-GAAP Financial Measures**

To supplement our consolidated financial statements, which are prepared and presented in accordance with GAAP, we use the following non-GAAP financial measures: free cash flow; constant currency revenues; and percentage change in constant currency revenues. The presentation of this financial information is not intended to be considered in isolation or as a substitute for, or superior to, the financial information prepared and presented in accordance with GAAP.

We use these non-GAAP financial measures for financial and operational decision-making and as a means to evaluate period-to-period comparisons. We believe that these non-GAAP financial measures provide meaningful supplemental information regarding our performance and liquidity by excluding certain items that may not be indicative of our recurring core business operating results, such as our revenues excluding the effect of foreign exchange rate movements and hedging activities, which are recognized at the consolidated level. We believe that both management and investors benefit from referring to these non-GAAP financial measures in assessing our performance and when planning, forecasting, and analyzing future periods. These non-GAAP financial measures also facilitate management’s internal comparisons to our historical performance and liquidity as well as comparisons to our competitors’ operating results. We believe these non-GAAP financial measures are useful to investors both because (1) they allow for greater transparency with respect to key metrics used by management in its financial and operational decision-making and (2) they are used by our institutional investors and the analyst community to help them analyze the health of our business.

There are a number of limitations related to the use of non-GAAP financial measures. We compensate for these limitations by providing specific information regarding the GAAP amounts excluded from these non-GAAP financial measures and evaluating these non-GAAP financial measures together with their relevant financial measures in accordance with GAAP.

For more information on these non-GAAP financial measures, please see the sections captioned “Reconciliation from GAAP Net Cash Provided by Operating Activities to Non-GAAP Free Cash Flow” and “Reconciliation from GAAP Revenues to Non-GAAP Constant Currency Revenues and GAAP Percentage Change in Revenues to Non-GAAP Percentage Change in Constant Currency Revenues” included at the end of this release.

- Google Services includes products and services such as ads, Android, Chrome, consumer devices, Google Maps, Google Play, Search, and YouTube. Google Services generates revenues primarily from advertising; fees received for consumer subscription-based products such as YouTube TV, YouTube Music and Premium, and NFL Sunday Ticket, as well as Google One; the sale of apps and in-app purchases; and consumer devices.
- Google Cloud includes infrastructure and platform services, applications, and other products and services for enterprise customers. Google Cloud generates services revenues primarily from consumption-based fees and subscriptions received for Google Cloud Platform services, Google Workspace communication and collaboration tools, and other enterprise services. Google Cloud generates product revenues primarily from the sale of TPU systems.
- Other Bets is a combination of multiple operating segments that are not individually material. Revenues from Other Bets are generated primarily from the sale of autonomous transportation services and internet services.

Certain costs are not allocated to our segments because they represent Alphabet-level activities. These costs primarily include:

- certain AI-focused shared research and development activities, including employee compensation expenses and technical infrastructure usage costs associated with the development of our general AI models;
- corporate initiatives such as our philanthropic activities; and
- corporate shared costs such as certain finance, human resource, and legal costs, including certain fines and settlements.

Charges associated with employee severance and office space reductions are also not allocated to our segments. Additionally, hedging gains (losses) related to revenue are not allocated to our segments.

For Q3 2026, the net effect of the loss on equity securities of $8.7 billion decreased the provision for income tax, net income, and diluted net income per common share by $1.9 billion, $6.7 billion, and $0.55, respectively. Fluctuations in the value of our investments may be affected by market dynamics and other factors and could significantly contribute to the volatility of OI&E in future periods.

**Reconciliation from GAAP Net Cash Provided by Operating Activities to Non-GAAP Free Cash Flow** (in millions; unaudited)**:**

We provide non-GAAP free cash flow for the current quarter and trailing twelve months ("TTM") because it is a liquidity measure that provides useful information to management and investors about the amount of cash generated by the business that can be used for strategic opportunities, including investing in our business and acquisitions, and to strengthen our balance sheet.

| | Quarter Ended | | | | TTM |
|---|---|---|---|---|---|
| | Q4 2025 | Q1 2026 | Q2 2026 | Q3 2026 | Q3 2026 |
| **Net cash provided by operating activities** | $ 52,402 | $ 45,790 | $ 39,069 | $ 42,290 | $ 179,551 |
| Less: purchases of property and equipment | (27,851) | (35,674) | (44,924) | (51,355) | (159,804) |
| **Free cash flow** | $ 24,551 | $ 10,116 | $ (5,855) | $ (9,065) | $ 19,747 |

*Free cash flow:* We define free cash flow as net cash provided by operating activities less capital expenditures.

*TTM free cash flow:* We define trailing twelve months free cash flow as net cash provided by operating activities less capital expenditures for the most recent twelve consecutive months.

**Reconciliation from GAAP Revenues to Non-GAAP Constant Currency Revenues and GAAP Percentage Change in Revenues to Non-GAAP Percentage Change in Constant Currency Revenues** (in millions, except percentages; unaudited)**:**

We provide non-GAAP constant currency revenues ("constant currency revenues") and non-GAAP percentage change in constant currency revenues ("percentage change in constant currency revenues"), because they facilitate the comparison of current results to historic performance by excluding the effect of foreign exchange rate movements ("FX Effect") as well as hedging activities, which are recognized at the consolidated level, as they are not indicative of our core operating results.

Non-GAAP constant currency revenues is defined as revenues excluding the effect of foreign exchange rate movements and hedging activities and is calculated by translating current period revenues using prior period exchange rates and excluding any hedging effect recognized in the current period. We calculate the percentage change in constant currency revenues by comparing constant currency revenues to the prior year comparable period revenues, excluding any hedging effect recognized in the prior period.
